

Notice to SSAA (NSW) Sydney Branch Members

Silverdale Range has the SSAA Lever Action Discipline programmed for a regular monthly shoot.

When: 4th Sunday of the month at 12 noon.

Contact: Jim Buckley Mob 0409 494 846

Bring your lever rifle out and catch up with Jim

The Lever Action Match is an exciting and popular event Australia wide which is unique to the SSAA. The first Nationals were held in 1976 with Silverdale Range hosting the second National Championship in 1977.

The competition has a mix of precision and rapid fire events shooting from 3P positions both supported and unsupported. It is excellent for hunting practice.

There are three distinct matches involved:

* Rimfire: This match is shot with a lever action rifle with a wooden stock with any open sight. The rifle can be chambered for any rimfire ammunition commonly 22LR or 22WMR but the 17HMR or 17MK2 are also allowable.

* Centrefire: This match is shot with a lever action with a wooden stock with any open sight. The rifle can be chambered for any centrefire ammunition.

* Classic Calibre: This match is shot with your stock standard centrefire lever action.

Classic Calibre is a 35 round match, and Centrefire and Rimfire are both 50 rounds.
